

## BG10P multimedia conference

Peter's family is an international family. Peter and his wife own a company in Shanghai China, their father in USA and son in England. With the approaching of Labor's Holiday the families need a conference to discuss the trip. However wife went to Beijing for business. How to do? Fortunately Peter bought BG10P through which this family made a conference with PSTN call, Skype call (voice and video).

## BG10P's features for conference

1. In PSTN talking user can dial Skype contact through the software UI. BG10P will add this Skype contact to form a conference.
2. In Skype talking user can dial PSTN contact through the software UI. BG10P will add this PSTN contact to form a conference.
3. If a Skype call comes in PSTN talking, user can press #2 to answer the new Skype call to form a conference.
4. If a PSTN call comes in Skype talking, user can press #2 to answer the new PSTN call to form a conference.

## BG10P Skype Conference Bridge

Skype can realize a conference of at most 5 parties.

One BG10P can make a conference of 6 parties (1 Skype conference of 5 parties and 1 PSTN party)

Two BG10P can make a conference of 10 parties (two Skype conference connected by BG10P bridge)
