Figure	Description
1	The headset is equipped with a quick disconnector. Users can connect the headset to a special adapter to connect to your IP phone.
2	The headset are fitted with a standard modular connector. To use the headset models, simply insert the modular connector into the headset port of a compatible telephone.
3	To adjust the headband, lengthen or shorten the adjustment rod until it fits comfortably. The click-stop feature keeps the headband securely adjusted. Position the headset receivers so that the foam cushions sit comfortably over the centre of your ears.
4	On models with only one receiver, position the T-bar above your ear.
5	Hold the receiver securely against your ear with one hand. With the other hand, Use the fixed boom, adjust the microphone to about one finger distance to your lips.
6	The clothing clip helps to keep the headset properly positioned and free from the cord's weight. Attach the clothing clip at a comfortable level to liberate your hand.

YHS32
